# About Our Company

## A Brief Story About Janoob Al-Zubair (JZ)

JZ is an Iraqi private local company established in year of 2010 started with infrastructures & development projects , such as civil, mechanical , electrical and other construction services.

JZ has its own work forces to perform the majority of work. We have available sufficient heavy equipment to perform all utility and the site development work for the typical construction project. With respect to building construction, our own work forces have the ability to perform all earth work, concrete work, carpentry, drywall and other works, related to our services. Our team has also specialists in installation of specialty products, equipment and heavy machinery mechanics, as well as catering specialists. It is our philosophy that we are better able to manage the construction process, affect efficient construction costs and maintain and expedite the construction schedule by performing large portions of the work with our own equipment and personnel.

# Vision

Our vision serves as the framework for our Roadmap and guides every aspect of our business by describing what we need to accomplish in order to continue achieving sustainable, quality growth.

# Mission

Our Roadmap starts with our mission, which is enduring. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.

01

To refresh our homeland...

02

To inspire moments of optimism and happiness...

03

To create value and make a difference.

# Our Values

We have five values that express our shared understanding of what we believe, how we aim to behave and what we aspire to be as an organization

## 01 Desire

Committed in heart and mind to wholeheartedly embrace our core values and culture, without exception.

## 02 Responsibility

To consistently deliver quality, on time, safely and to budget whilst protecting our communities and the environment

## 03 Relations

Growing our organization from within, promoting and empowering our people, inspiring them to be the best they can be.

## 04 Professional

At all times we act with integrity, providing quality service, reliably and responsibly.

# Ethics

## Safety

Safety is good business. Everything we do relies upon the safety of our workforce and the communities around us.

We care about the safe management of the environment. We are committed to safely delivering energy to the world.

## Courage

What we do is rarely easy. Achieving the best outcomes often requires the courage to face difficulty, to speak up and stand by what we believe.

We always strive to do the right thing. We explore new ways of thinking and are unafraid to ask for help. We are honest with ourselves, and actively seek feedback from others. We aim for an enduring legacy, despite the short term priorities of our world.

## Respect

We respect the world in which we operate. It begins with compliance with laws and regulations.

We hold ourselves to the highest ethical standards and behave in ways that earn the trust of others. We depend on the relationships we have and respect each other and those we work with. We value diversity of people and thought. We care about the consequences of our decisions, large and small, on those around us.

## Excellence

We are in a hazardous business, and are committed to excellence through the systematic and disciplined management of our operations.

We follow and uphold the rules and standards we set for our company. We commit to quality outcomes, have a thirst to learn, and to improve. If something is not right, we correct it.

# Our Team

**Yes, We Can..**

JZ Management Team is one of the main pillars of its success, continued growth and expansion.

Most of the members have been with the company for over years. Dedication, expertise, professionalism and commitment are the main drivers of the management policy.

Consistency, clarity and steadiness of purpose are cornerstones of our performance. We inspire through leadership the same principles to the new generation of staff joining the company.

We will always seek to innovate, to upgrade our capabilities and to meet new challenges. Our mission is to treasure our rich heritage and transcend to new limits.

JZ has its own work forces to perform the majority of work. We have available sufficient heavy equipment to perform all utility and the site development work for the typical construction project. With respect to building construction, our own work forces have the ability to perform all earth work, concrete work, carpentry, and other works, related to our services. Our team has also specialists in installation of specialty products, equipment and heavy machinery mechanics, as well as catering specialists. It is our philosophy that we are better able to manage the construction process, affect efficient construction costs and maintain and expedite the construction schedule by performing large portions of the work with our own equipment and personnel.

11	Operator	8
12	Skilled Workers	68

**“ GREAT ORGANIZATIONS DEMAND A HIGH LEVEL OF COMMITMENT BY THE PEOPLE INVOLVED ”**

*Bill Gates*

# Equipment & Plants

JZ owns equipment fleet that has grown over the years to match the job requirements, available supplies and new work trends. The equipment fleet is a major asset and its growth has to be a judicious investment.

Our extensive experience, combined with today's practices, has led to determining the brands, models, sizes, and suppliers who will give the best results in terms of:

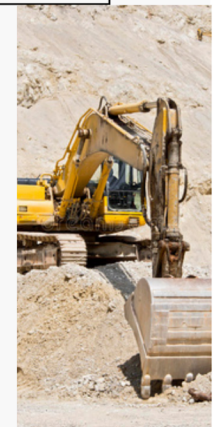

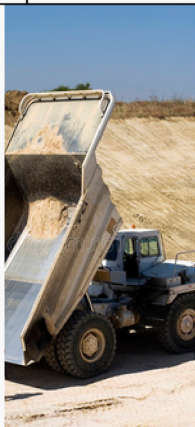

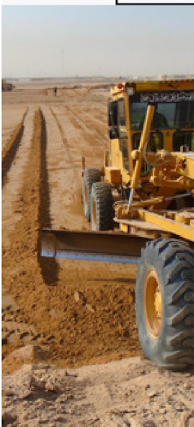

- Timely achievement of the projects
- Minimization of downtime
- Equipment efficiency
- Equipment durability Optimization of investment

17	Nissan	Pick up	6	Owned
18	Hitachi	Excavator	1	Owned
19	Hitachi	Excavator	2	Rented
20	Scania	Dump Truck	12	Rented
21	Volvo	Dump Truck	6	Owned

# Occupational Health & Safety and Environmental Management System

The ISO 14001:2015 standard is the basis for the environmental management system element of SBC's IMS. The adoption of ISO 14001:2015 provides a framework for conducting business in an environmentally responsible manner.

The system features four core procedures:

- Environmental aspects identification, impact assessment and control procedures.
- Operational control procedures.
- Emergency preparedness and response procedures.
- Control procedures for legal and other requirements.

JZ is committed to reducing accidents and incidents through continual training of all employees and members of its supply chain. The ISO 45001:2018 standard provides the basis for the company's occupational health and safety (OHS) management system within the IMS and offers a framework for conducting business in an atmosphere that reflects the highest levels of occupational health and safety.

JZ identifies occupational health and safety as a top priority on all projects, and so has implemented the following ISO 45001:2018 procedures:

- Hazard identification, risk assessment and control. Emergency preparedness and response.
- ISO 45001:2018 system structure and responsibility. Training, awareness and competence.
- Operational control.
- Consultation and communication.
- Legal and other requirements control.
- Incident investigation and reporting.
- HSE objectives, targets and programs.
- Training, awareness and competence.
- Performance measuring, monitoring and improvement.
